SUMMARY

I am a **Full Stack Junior Developer** with previous studies on Arts and Cinema. I walked into programming in the most unexpected way and I couldn't be more grateful for it.

Right now, recently graduated from **Makers Academy**, I would love to find a job in an environment that supports my learning. I am currently based in London, willing to stay, but also open to new horizons.

PROJECTS

Mix Tape

 [Github](#)  [Heroku](#)

First time using React calling Rails for the backend and Spotify API. Combines selected users top tracks to generate a playlist that you can listen from the browser

- Tech Stack: Rails, React, Postgres, CSS, Rspec, Capybara

Acebook

 [Github](#)  [Heroku](#)

First time using Rails, building a clone of Facebook

- Tech Stack: Rails, Postgres, Devise, Bootstrap, Rspec, Capybara

Thermostat

 [Github](#)

JavaScript full stack project. Allows to manipulate indoor the temperature, saving the status, and offers outdoor temperature information from a weather API

- Tech Stack: JavaScript, JQuery, Sinatra, Postgres, CSS, Rspec

EXPERIENCE

Makeup, Hair and Costume

Various roles from 2017 to 2019

Perseverance, **patience**, **attention to detail** and a very strict **time management** and **organisation** skills are the most valuable skills I got from this part of my job experience. It is also a great practice for **team work** and delegation, specially when working in big projects.

Tourism

Various roles from 2014 to 2020

Team management, customer care and being able to **react fast to any unexpected situation** were key skills in these roles. I had a lot of responsibility, dealing with new team members, big groups of customers and a tight schedule, while paying attention to every detail. On a side note, working as a translator mixing up to five different languages is a great work out for your brain!

Hospitality and Retail

Various roles from 2012 to 2018

Communication, **self-awareness** and **empathy** are very important to deal with problematic customers or with your coworkers and make shifts run smoothly.

EDUCATION

Makers Academy

Software Bootcamp

 02/2020 - 05/2020  London, UK

Instituto del Cine

Makeup, Hair and SFX for Cinema
